

4th Annual Banting Legacy Transition Symposium - 2015

FIGHTING DIABETES and PRESERVING A LEGACY

**The Sir Frederick Banting Legacy Foundation invites you
to participate in our Symposium**

Transition and Mental Health Challenges for Youth Living with Diabetes

Diabetes can trigger mental health issues or amplify existing concerns. Mental health challenges can increase the daunting transition for youth and also bring requirements for healthcare providers to be trained to recognize and treat this added complexity. With the help of all participants, we seek to explore potential gaps in required care, experiences with monitoring and interventions and resulting implications for this population.

Are there opportunities for new approaches, or broader application of existing, to assist youth living with diabetes and to enhance the capacity and capability of caregivers to meet these needs?

Dr. Khush Amaria, PhD, C.Psych, Team Lead for the Good 2 Go Transition Program at the Hospital for Sick Children and Dr. Margaret Hahn, MD, PhD, FRCPC (guest speaker for the preceding Annual Lecture), Asst. Prof., Dept of Psychiatry, U of T and co-lead of the Mental Health and Metabolic Clinic, CAMH will provide opening perspectives to set the backdrop for discussion.

Please join with us:

Thursday, November 12, 2015

10:30 am – 1:00 pm

The Gibson Centre, 63 Tupper St., W., Alliston, Ontario, L9R 1E4

Contact: bantinglegacy@hotmail.com
or telephone: 705-435-0111

A light lunch is included.

Guests are invited to tour the Diabetes Management and Education Centre at the Banting Homestead Heritage Park following the Symposium.

Our public Annual Transition Lecture precedes the Symposium at 9:00 am and we encourage you to attend that also.

**Please submit the attached Registration Form
by October 30, 2015 to reserve your spot**

This event is part of the 2015 Banting Legacy Week celebrations
