

CANSSI Ontario | Research Day

Featuring population-level data available to Ontario Researchers.

Thursday, March 5, 2020

Peter Gilgan Centre for Research and Learning

Robert B. Salter Auditorium, 686 Bay Street, Toronto, ON

10:00 am - 12:30 pm

Learn about rich population-level data available to researchers in Ontario and how Ontario scientists are using it to make big discoveries.

SPEAKERS

Peter Austin, *Senior Core Scientist, Cardiovascular Research Program, ICES*

Philip Awadalla, *Director, CPTP (Canadian Partnership for Tomorrow Project)*

Jeffrey R. Brook, *University of Toronto Nominated PI and Scientific Director, CANUE (Canadian Urban Environmental Health Research Consortium)*

Parminda Raina, *McMaster University Lead Principal Investigator, CLSA (Canadian Longitudinal Study on Aging)*

12:30 - 2:00 pm

Population Data Expo | Lunch

2:00 - 3:30 pm

Join us for an engaging panel discussion as leading Canadian experts debate the personal and clinical utility of

**GENETIC RISK SCORES:
ARE THEY READY FOR
PRIME TIME?**

INTRODUCTION

Stephen Scherer

Senior Scientist; Director, The Centre for Applied Genomics, The Hospital for Sick Children

EXPERTS

Robert Hegele

Distinguished University Professor, Western University

Ruth McPherson

Director, Ruddy Canadian Cardiovascular Genetics Centre and the Lipid Clinic, University of Ottawa Heart Institute

Steven Narod

Senior Scientist, Women's College Research Institute

Andrew Paterson

Senior Scientist, The Hospital for Sick Children

UNIVERSITY OF TORONTO
FACULTY OF ARTS & SCIENCE

This event is **FREE** for faculty, staff, and trainees of academic institutions and members of the not-for-profit sector. **RSVP** Required. First come-first serve seating, subject to venue capacity. Presented by CANSSI Ontario.
