

Stan Gasner Graduate Scholarship in Healthcare Engineering

Donor: Stanley Gasner

Value: ~up to \$4,000

Award Overview

Level of Study:

Master's and Doctoral (research stream only)

To be awarded to graduate students pursuing research in healthcare engineering on the basis of financial need. Preference will be given to a student(s) who has successfully accepted and/or completed a summer internship at a hospital. Students must be a Canadian citizen or a permanent resident. The applicant must be conducting research as part of the Centre for Healthcare Engineering.

Eligibility

Applicants must:

- be currently enrolled in a full-time MAsc or doctoral research engineering program at Faculty of Applied Science & Engineering pursuing research in healthcare engineering
- be conducting research as part of the Centre for Healthcare Engineering
- must be a Canadian citizen or a permanent resident
- must demonstrate financial need. Student(s) can demonstrate financial need by completing the OSOTF Financial Need Assessment form.
 - applicants can ignore the "OSOTF Requirements" box on the 2nd page of the form as well as the OSOTF criteria at the top of the guide (3rd page of the PDF).
- Preference will be given to those who have successfully accepted and/or completed a summer internship at a hospital
- Be a registered student for Winter 2023 session

Application Package

The application package for each nominee should be scanned as a single PDF-file, containing all application materials.

A complete application package includes:

- Copies (both sides) of all academic transcripts – legend must be included (may be from the candidate's admission file);
- Electronic copies of UofT transcripts are acceptable
- Research statement and career aspirations, no more than one page
- Letter of support from UofT supervisor
- C.V. (no page restriction)
- A completed OSOTF Financial Need Assessment form to assess financial need
